

Message from Foundation Leadership – Humber River Health Foundation

This past year marked a defining moment in our history.

With extraordinary gratitude, we begin by recognizing **The Hennick Family Foundation and their \$50 million donation, the largest in our history**. Their donation is a powerful vote of confidence in the future of healthcare in our community. In recognition of this partnership, we are proud to carry a new name: Hennick Humber Hospital Foundation, a name that reflects both our ambition and our shared commitment to advancing exceptional care at Humber.

As the fundraising arm of Humber River Health, we continue to operate as Humber River Health Foundation. However, in support of the hospital, we proudly fundraise under the Hennick Humber Hospital Foundation name, reinforcing the impact of this extraordinary partnership across our community.

This milestone is more than a moment, it is momentum.

In 2025, we celebrated ten years of Humber River Health's Wilson Site and a **decade of firsts** in Canadian healthcare. This momentum was felt across every corner of our work. We celebrated our 10th anniversary with the Sapphire Soirée, raising an extraordinary **\$2.55 million in just one night** in support of Humber. We also reached a major milestone for the James B. Neill Centre for Applied Simulation and Innovation, raising **\$10 million this year alone**, including a remarkable **\$5 million gift** from James B. Neill.

These achievements are more than milestones; they are proof of what is possible when a community comes together with purpose.

Together, we are strengthening Humber's position as a leader in technology-enabled, patient-centered care. Where innovation, compassion, and community come together to deliver better outcomes for all. As we look ahead, our focus is clear: to build on this momentum, to continue earning your trust, and to ensure that every investment translates into meaningful impact for those we serve.

On behalf of the Board of Directors and our entire Foundation team, thank you for your belief, your partnership, and your commitment to Hennick Humber Hospital Foundation.

Together, we are shaping **Tomorrow's Healthcare, Today**.
